PMI Plastic Lumber Product Specifications

Material Specification:

pmi custom recycled plastic lumber profiles, are manufactured from pre washed 100% Post Consumer Recycled High Density Polyethylene, using a proprietary manufacturing process. The finished boards are dimensionally accurate and consistent the entire length, width and thickness of the product, meeting all stated specifications in accordance with user requirements.

The finished product will have an attractive, closed pore, light semi-textured surface, no porosity and consistent solid color throughout. To insure against color variance, the finished product contains the best colorant and U.V. Stabilizer available and, is protected by a **Twenty (20) Year manufacturers warranty against color fading.**

Design Specification:

pmi custom recycled plastic lumber profiles are designed and manufactured to meet commercially accepted, standard wood dimensions and are available in a wide selection of standard and custom profiles, ranging from 1/2" x 1 1/2" up to 7 1/2" x 7 1/2" square and 1 1/2" to 5" round. Our profiles are available in both standard and custom colors.

As with all pmi products, our recycled plastic lumber profiles are covered by a **Twenty-Five (25) year warranty.** (Available on request)
